

Peña Course: The 62nd Workshop for the Surgical Treatment of Colorectal Problems in Children

A comprehensive surgical and management workshop

Children's Hospital Colorado
Anschutz Medical Campus
13123 East 16th Avenue
Aurora, Colorado 80045

April 12-14, 2017

Provided by: Children's Hospital Colorado

Course Description

This course is designed for pediatric surgeons, urologists, gynecologists and gastroenterologists, as well as pediatric nurses managing patients with colorectal issues. This course will show live operative demonstrations, what we believe are the most important surgical/technical maneuvers to be performed during the repair of ano-rectal malformations and Hirschsprungs disease. View three carefully selected operations (one per day).

Learner's Outcome

Learners will be able to propose practice improvements to their teams based on evidence-based guidelines, tools and resources presented at the conference.

Course Objective

At the conclusion of the course, participants will be able to:

- Review the principles of diagnosis and management of anorectal defects.
- Discuss the challenges of short-and long-term postoperative care.
- Explain the principles of treatment of Hirschsprung's disease and related disorders.
- Describe the diagnosis of Hirschsprung's disease and idiopathic constipation and the difference in their management.
- Recognize indications for reoperative surgery.
- Discuss management of associated urologic and gynecologic problems.
- Review the comprehensive management approach to cloacal exstrophy.
- Explain or Outline the use of the posterior sagittal approach for a variety of conditions.

This three-day intensive teaching course will examine the surgical treatment and management of pediatric anorectal and colorectal surgical problems including:

- Live operating room demonstrations with discussion
- Methods of evaluation of surgical techniques
- Anorectal malformations
- Cloacal malformations
- Cloacal exstrophy
- Prognosis of these deformities
- Hirschsprung's disease
- Idiopathic constipation
